DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Sunday, 28 March 2021 at 04:30 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will be predominantly Low today, thanks to strong winds originating from the Atlantic. However, some isolated pockets of Moderate air pollution may develop in northern Scotland and the Northern Isles.

Tomorrow: Air pollution levels are expected to remain predominantly Low on Monday. However, some isolated pockets of Moderate air pollution may persist across the Northern Isles.

Outlook: Isolated pockets of Moderate air pollution are still likely in northern Scotland and the Northern Isles on Tuesday and Thursday. Some very warm and sunny conditions may cause air quality to worsen across the south-east of England on Wednesday, with Moderate pollution levels in some locations, mainly London.
